                                 Message . . . . :   Job 013886/QSYS/QLUS ended on 20/01/09 at 00:07:58; 1
                                   seconds used; end code 0 .
                                 Cause . . . . . :   Job 013886/QSYS/QLUS completed on 20/01/09 at 00:07:58
                                   after it used 1 seconds processing unit time. The job had ending code 0.
                                   The job ended after 1 routing steps with a secondary ending code of 0. The
                                   job ending codes and their meanings are as follows: 0 - The job completed
                                   normally. 10 - The job completed normally during controlled ending or
                                   controlled subsystem ending. 20 - The job exceeded end severity {ENDSEV job
                                   attribute}. 30 - The job ended abnormally. 40 - The job ended before
                                   becoming active. 50 - The job ended while the job was active. 60 - The
                                   subsystem ended abnormally while the job was active. 70 - The system ended
                                   abnormally while the job was active. 80 - The job ended {ENDJOBABN command}.
                                   90 - The job was forced to end after the time limit ended {ENDJOBABN
                                   command}. Recovery . . . :   For more information, see the Work Management
