                                      Message . . . . :   Subsystem ending immediately.
CPF1164   Completion   00   20/01/09   00:04:12.846120   QWTMCEOJ   QSYS   00D7   *EXT   *N
                                      Message . . . . :   Job 013920/QUSER/QNMAPINGD ended on 20/01/09 at 00:04:10;
                                       1 seconds used; end code 50 .
                                      Cause . . . . . :   Job 013920/QUSER/QNMAPINGD completed on 20/01/09 at
                                       00:04:10 after it used 1 seconds processing unit time. The job had ending
                                       code 50. The job ended after 1 routing steps with a secondary ending code of
                                       0. The job ending codes and their meanings are as follows: 0 - The job
                                       completed normally. 10 - The job completed normally during controlled ending
                                       or controlled subsystem ending. 20 - The job exceeded end severity {ENDSEV
                                       job attribute}. 30 - The job ended abnormally. 40 - The job ended before
                                       becoming active. 50 - The job ended while the job was active. 60 - The
                                       subsystem ended abnormally while the job was active. 70 - The system ended
                                       abnormally while the job was active. 80 - The job ended {ENDJOBABN command}.
                                       90 - The job was forced to end after the time limit ended {ENDJOBABN
                                       command}. Recovery . . . :   For more information, see the Work Management
