                                         Message . . . . :   Job 013990/QTCP/QTVDEVICE ended on 20/01/09 at 00:04:53; 2
                                         seconds used; end code 50 .
                                         Cause . . . . . :   Job 013990/QTCP/QTVDEVICE completed on 20/01/09 at
                                         00:04:53 after it used 2 seconds processing unit time. The job had ending
                                         code 50. The job ended after 1 routing steps with a secondary ending code of
                                         0. The job ending codes and their meanings are as follows: 0 - The job
                                         completed normally. 10 - The job completed normally during controlled ending
                                         or controlled subsystem ending. 20 - The job exceeded end severity {ENDSEV
                                         job attribute}. 30 - The job ended abnormally. 40 - The job ended before
                                         becoming active. 50 - The job ended while the job was active. 60 - The
                                         subsystem ended abnormally while the job was active. 70 - The system ended
                                         abnormally while the job was active. 80 - The job ended {ENDJOBABN command}.
                                         90 - The job was forced to end after the time limit ended {ENDJOBABN
                                         command}. Recovery . . . :   For more information, see the Work Management
