                                    Message . . . . :   Job 014001/QTCP/QTLPD05006 ended on 20/01/09 at 00:06:28;
                                     1 seconds used; end code 50 .
                                    Cause . . . . . :   Job 014001/QTCP/QTLPD05006 completed on 20/01/09 at
                                     00:06:28 after it used 1 seconds processing unit time. The job had ending
                                     code 50. The job ended after 1 routing steps with a secondary ending code of
                                     0. The job ending codes and their meanings are as follows: 0 - The job
                                     completed normally. 10 - The job completed normally during controlled ending
                                     or controlled subsystem ending. 20 - The job exceeded end severity {ENDSEV
                                     job attribute}. 30 - The job ended abnormally. 40 - The job ended before
                                     becoming active. 50 - The job ended while the job was active. 60 - The
                                     subsystem ended abnormally while the job was active. 70 - The system ended
                                     abnormally while the job was active. 80 - The job ended {ENDJOBABN command}.
                                     90 - The job was forced to end after the time limit ended {ENDJOBABN
                                     command}. Recovery . . . :   For more information, see the Work Management
